

A note from Mountain Dew Behavioral Health on COVID-19:

In order to keep our patients safe, we have been diligently following directions from the Centers for disease Control and Prevention (CDC).

- Within our office, we have increased our cleaning routine, and use Clorox bleach and Lysol disinfectant spray. We thoroughly clean all treatment machines after each use, and disinfect door handles, seats, counters, and tabletops, as often as possible throughout the day.
- We have hand sanitizer, soap, and water, readily available for everyone coming in.

We do our best to make sure we have a clean and comfortable environment for all our patients. Thanks!

Sincerely,

Management
